

KEY REASONS TO STUDY MEDICINE IN CENTRAL AMERICA / TEXILA AMERICAN UNIVERSITY

Texila American University™
Bringing Education to Life

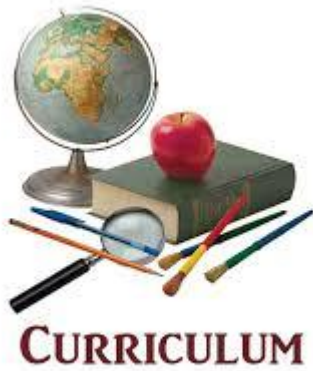

- ▶ ***Texila American University (TAU), is one among the most exclusive Caribbean Medical Schools, located in Guyana***
- ▶ ***Started to offer On Campus programs from the year 2010***
- ▶ ***TAU renders a quality medical education highlighted with student diversity***
- ▶ ***Our goal is to prepare students for the next level of medical training by implementing the US Standard Curriculum.***

- ❖ Listed in WHO, IMED & MCI
- ❖ Tropical Climate
- ❖ Local language is English
- ❖ Built across 167565 square feet of Academic Space
- ❖ Dedicated and experienced faculties
- ❖ Advanced and US based curriculum

- ❖ *Most of the diseases taught will suit many countries*
- ❖ *Compact green campus with smart classrooms*
- ❖ *Well defined and equipped laboratories*
- ❖ *Training USMLE & other national license exam*
- ❖ *Clinical rotation in US hospitals*
- ❖ *Affordable Fees*

• *Texila American University strictly follows the US Education system and curriculum and hence are focused towards preparing Physician workforce for countries like USA, Canada, etc*

• *In most Universities, students write the NBME – National Board of Medical Examiners’ examination, USA’s board examinations on completion of Basic Medical Sciences and Clinical Sciences. (In other countries, the exams are all internal or conducted by the local governments’ examination authority)*

- *NBME is the body that conducts the board examinations for Medical students studying in the US Universities.*
- *NBME is the body that conducts the USMLE examinations as well. Hence, most of these Medical universities follow 100% the same curriculum followed in USA / Canada.*
- *Particularly, Pathology, Internal, Family and community Medicine modules are the same as in USA (In other countries its different)*

NAC

TAU is recognized by the Department of Education Via registration with the National Accreditation Council of Guyana.

WHO

Texila American University (TAU) is listed in the World Health Organization - The AVICENNA Directories, which is a publicly accessible database of schools, colleges, and universities for education of academic professions in health.

Medical Council of Guyana

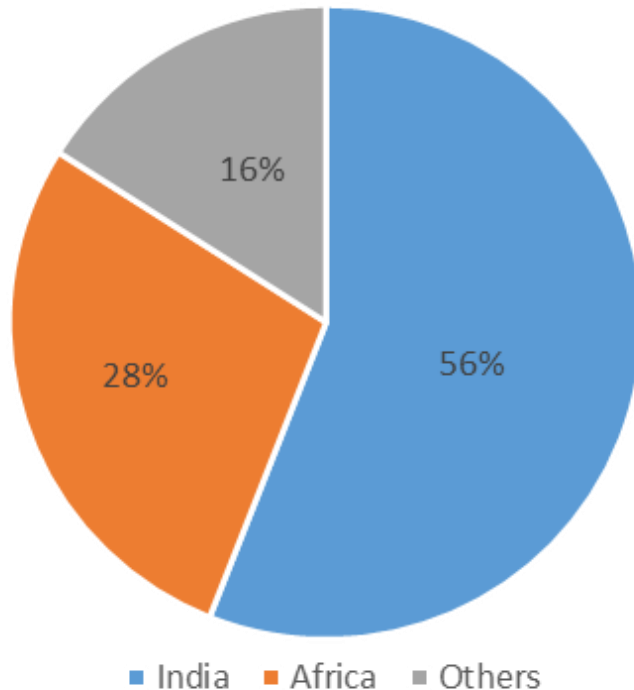

Texila American University is recognized by the Medical Council of Guyana (MCG) - a regulatory body formed to enhance and monitor the functioning of the medical fraternity in Guyana

MCI

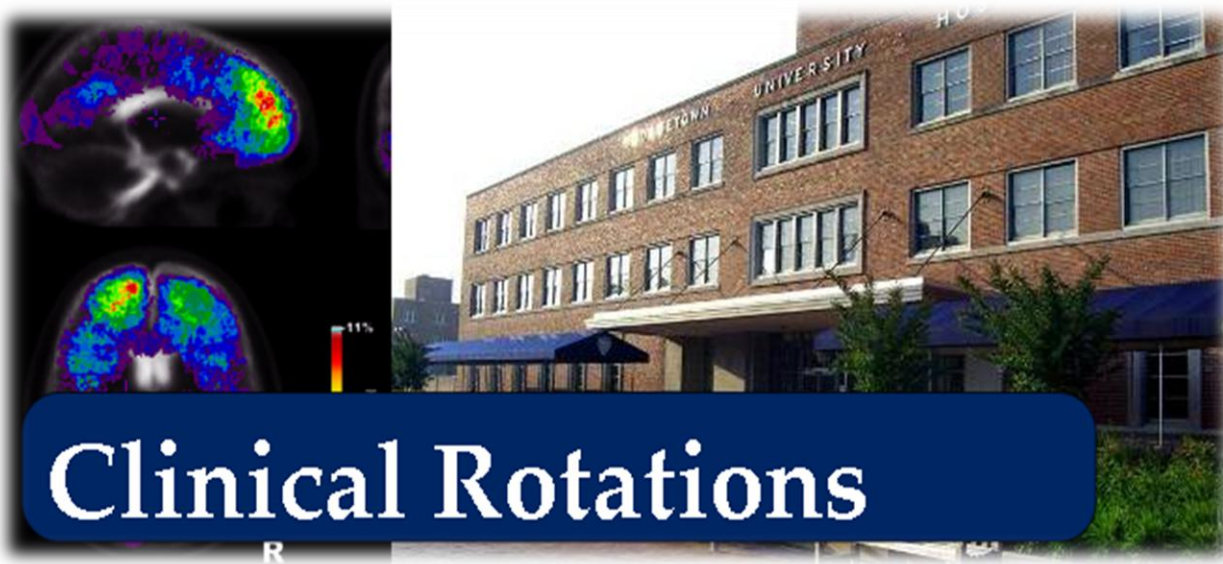

TAU is recognized as per the Medical Council of India Act 1956 Section 13 (4A) & (4B). Today we are proud and delighted to share that all the students who appeared for MCI screening exam cleared the exam in first attempt. The university's name can be seen on MCI website upon clicking on the MCI logo on this section of the website.

Year 1 Residency

State Licensure

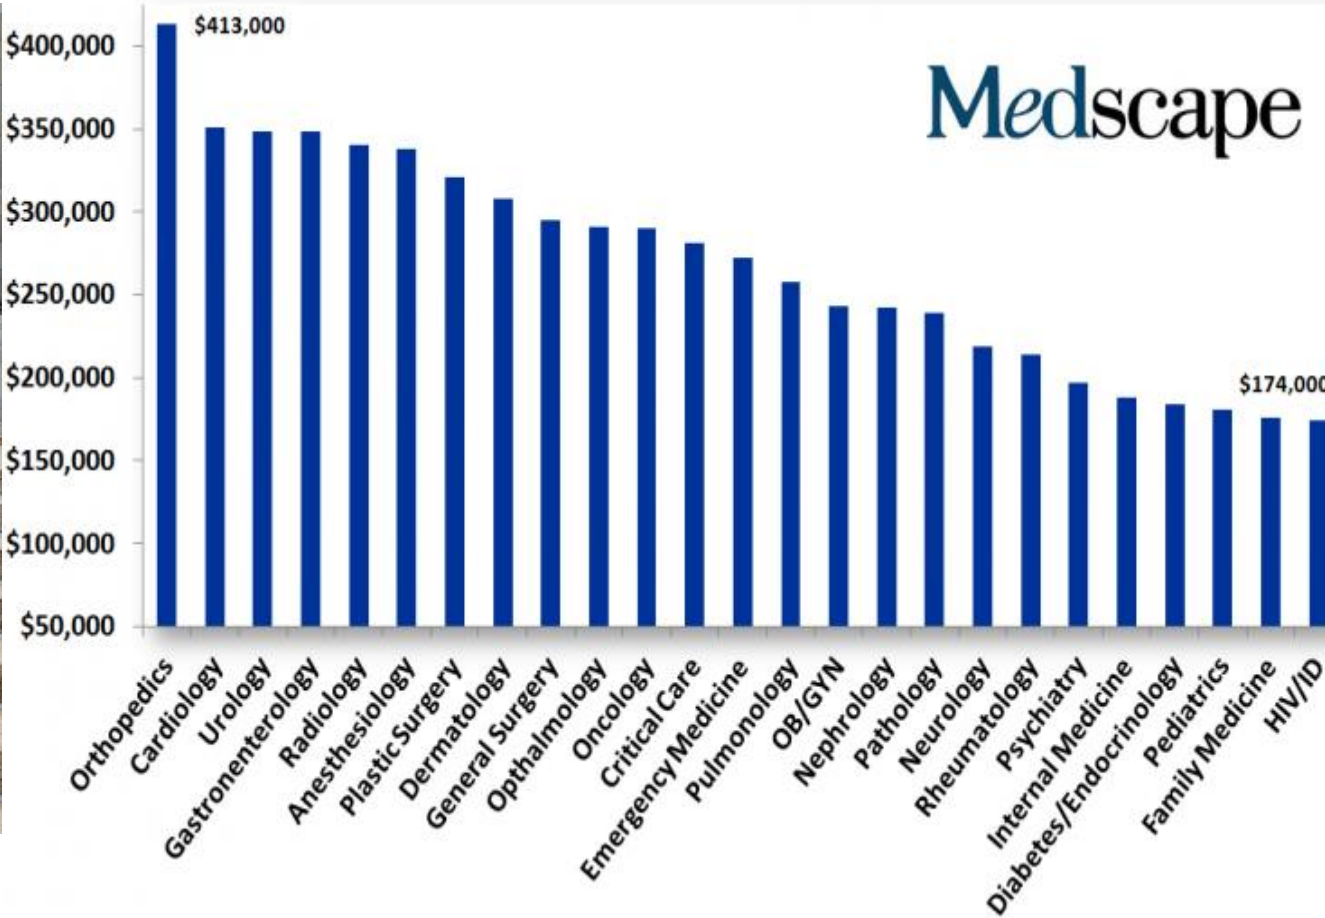

Residency Training

Board Certification Required for Advance Training & by Most Employers

United States Medical Licensing Examination

Average Annual Physician Compensation

Expenses involved in studying medicine in the Caribbean may vary from university to university.

On an average, the cost may vary from INR 50-90 Lakhs overall, inclusive of food accommodation, academic and miscellaneous expenses, travel, etc.

In very few universities the cost may go too high.

Nevertheless, the cost involved in pursuing a similar course in USA is very high.

The students, on clearing USMLE / other licensing examinations get an entry into the residency program, which is lucrative enough for the student to retrieve the cost completely in Maximum 1 – 2 Years.
